## Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States
- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 2. Claims 14 and 47-49 are rejected under 35 U.S.C. 102(b) as being anticipated by Bruchman et al. (U.S. Patent 5,762,600).

Bruchman et al. disclose a method for preparing a tissue graft made from bovine ureter as is claimed (column 7 lines 64-67, column 8 lines 1-9 and 19-61, column 9 lines 14-30 and 63-67, column 10 lines 1-4). In column 8 lines 1-9 and 19-61, Bruchman et al. disclose a tissue graft product that is subject to decllularization and nuclease treatment.

3. Claims 14 and 47-49 are rejected under 35 U.S.C. 102(e) as being anticipated by Tanagho et al. (U.S. Patent 6,371,992).

Tanagho et al. disclose a method for preparing a tissue graft made from ureter as is claimed (column 2 lines 16-60 and column 3 lines 21-25).

Please note in MPEP 2111.03, the transitional phrase, "consisting essentially of" will be construed as equivalent to "comprising."

## Response to Arguments

4. Applicant's arguments filed 01/26/2004 have been fully considered but they are not persuasive. In regard to claim 14, the rejection is proper because the product claims have been considered as product-by-process claims. In accordance with MPEP 2113, product-by-process claims are not limited to the manipulations of the recited steps, only the structure implied by the steps. In the instant case the structure implied by the steps is that of a tissue graft obtained from a ureter. Therefore the rejections by Bruchman et al. and Tanagho et al are proper.
